Comment Invited on Third Generation Wireless/IMT-2000 Petitions

(RM-9911 and RM-9920)

- 1. The Commission recently received two petitions relating to the implementation of third generation ("3G") wireless services, or International Mobile Telecommunications-2000 ("IMT-2000") services. The first petition, filed by the Satellite Industry Association (SIA) on April 28, 2000, requests that the Commission allocate the 2500-2520 MHz and 2670-2690 MHz bands for Mobile Satellite Service use. The second petition, filed by the Cellular Telecommunications Industry Association (CTIA) on July 12, 2000, requests that the Commission initiate a rulemaking proceeding to designate additional spectrum for 3G wireless services in a manner consistent with the IMT-2000 decisions recently made at the 2000 World Radiocommunication Conference.
- 2. The SIA Petition was assigned RM-9911 and was placed on public notice on July 7, 2000, and comments are currently due on August 7, 2000. We are herein assigning the CTIA Petition RM-9920, and placing it on public notice. Because these two petitions are related, we believe the public interest would be served by having a common comment date for the two petitions. Accordingly, we are establishing that common comment date as **August 28**, **2000**, thereby extending the date for comments to be filed on the SIA Petition.
- 3. This action is taken pursuant to authority found in Sections 4(i) and 303 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i) and 303; and pursuant to Sections 0.31, 0.241, and 1.46 of the Commission's Rules, 47 C.F.R. §§ 0.31, 0.241, and 1.46.
- 4. For further information on these two petitions, contact Rodney Small, Office of Engineering and Technology, 202-418-2452 <rsmall@fcc.gov>.
 - By the Office of Engineering and Technology -

See Report No. 2424.
