

TR-14 | STRUCTURAL STANDARDS FOR COMMUNICATION AND SMALL WIND TURBINE SUPPORT STRUCTURES

MEMO: Submitting Questions to the TR-14 Steering Committee Task Group

Thank you for your interest in TIA TR-14 Engineering Committee. **All questions directed to the Steering Committee Task Group must be submitted via the TR-14 FAQ web site using the following link:**

<http://tr14-faq.tiaonline.org/>

Prior to submitting a question please review the FAQ web site to confirm your submittal is unique and has not been previously addressed.

If you do not receive a confirmation that the question has been submitted, please retry or contact the TIA administrator for assistance at standards@tiaonline.org.

The TR-14 Steering Committee Task Group will not respond to questions that are not submitted via the FAQ website.

This site is limited to questions regarding the following TR-14 Committee Task Group published documents:

- [ANSI/TIA-222-G](#) "Structural Standard for Antenna Supporting Structures and Antennas"
- [ANSI/TIA-222-H](#) "Structural Standard for Antenna Supporting Structures, Antennas and Small Wind Turbine Support Structures"
- [TIA-322](#) "Loading, Analysis, and Design Criteria Related to the Installation, Alteration and Maintenance of Communication Structures"
- [TIA-5053](#) "Mounting System Classification"

These Standards are listed along the left side of the web site. Upon clicking the Standard of interest, a listing of each Standard's Sections, Annexes and Appendices will be shown. Use these listings to determine the section of the specific Standard in question. Each question shall be preceded by the section affected. Ex: Section 2.3.2 - ... Similarly, please enter the section number affected into the keywords field. This will allow future users to focus their research.

Submit one question per section. If more than one section is affected by the question, enter the section number of associated sections in the main body of the question. If there are multiple questions / section, please generate multiple submissions.

TIAONLINE.ORG

The TR-14 Steering Committee Task Group will respond to questions that are clearly definable. Questions that are the product of "engineering judgment" or are not directly related to the standard will not be addressed.

In all cases, a response will be returned to the originator of the submission including submissions that cannot be addressed by the Committee Task Group based upon the policies listed above.

If you have additional questions or comments, please submit an email to standards@tiaonline.org.

This is a not for profit web site provided to disseminate information regarding the above Standards published by the TIA TR-14 Engineering Committee. Responses to FAQs are prepared by the TR-14 Steering Committee Task Group with the intent to provide insight and clarity into the background and decisions made in the formulation of the Standards referenced above. Each FAQ response represents the consensus opinion of the TR-14 Steering Committee Task Group. The FAQ responses shall not be substituted for each user's responsibility to understand and implement the Standards in accordance with Engineering theory, ethics and laws. The TIA TR-14 Steering Committee Task Group for the noted Standards disclaims for itself, its committee Task Group members and the Telecommunications Industry Association any liability for any injury to persons or to property or other damages of any nature whatsoever, whether special, indirect, consequential or compensatory, directly or indirectly resulting from the use of or reliance upon information contained on this web site or application of the activities or devices referenced herein. This FAQ does not modify or update any standards and is not a substitute for the implementer's own research, judgement, and engineering experience. This FAQ is for information purposes only and helps the Steering Committee Task Group understand where updates to the standards may need to be made in future revisions.
